# SHIBHAM

*Frontend developer*

6280603321 himanshukumar1531b@gmail.com LinkedIn GitHub Chandigarh , India

## PROFESSIONAL SUMMARY

BCA graduate from Panjab University (2026) with hands-on experience in building responsive and interactive web applications using HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, Tailwind CSS, and SCSS. Skilled in responsive UI development, CSS animations, and Git/GitHub for version control. Seeking an entry-level Frontend Developer role to contribute to user-friendly web experiences, apply problem-solving skills, and grow as a software developer.

## EDUCATION

**Panjab University** | Chandigarh — Aug 2023 - Jun 2026

*Bachelor of Computer Application* — *CGPA : 7.8/10*

- Class 12 PCM (CBSE) - 2022 | 62.40%
- Class 10 {CBSE) - 2020 | 60.8%

## PROJECTS

**MAC OS** | Github Live Demo — Oct 2026 - Oct 2026

*Frontend Developer*

Developed an interactive macOS Desktop Web Clone using **React.js** and SCSS, featuring a native OS-like interface to showcase projects. Key implementations include:

- A dynamic Dock for easy navigation
- Glassmorphism UI for a modern aesthetic
- Window state management for enhanced user experience
- An interactive CLI Terminal for command execution
- Built-in widget previews, including **Spotify** and a PDF viewer

***Technologies / Tools Used :*** *React, SCSS, API, JavaScript*

**PRODUCTIVITY DASHBOARD** | Github Live Demo — Sep 2026 - Sep 2026

*Frontend Developer*

- Developed an interactive productivity dashboard featuring task management, daily planning, daily goals, and a Pomodoro timer for time management.
- Integrated live date/time, weather information, and motivational quotes using JavaScript and external APIs.
- Implemented localStorage to persist tasks and daily planner data, along with dynamic theme switching for an enhanced user experience.
- Designed a modern user interface with a brown and teal-inspired color palette, interactive components, and custom CSS styling.

***Technologies / Tools Used :*** *HTML, CSS, JavaScript, Realtime API*

**E-COMMERCE PRODUCT CATALOG** | Github Live Demo — Aug 2026 - Aug 2026

*Frontend Developer*

Developed a responsive React web application that fetches real-time product data from FakeStore API. Implemented Context API for global state management and client-side routing for dynamic product details viewing.

***Technologies / Tools Used :*** *React, Context API, React Router, Fake Store APi, CSS*
